30 GHz test stand  

150 MeV e⁻ linac  

magnetic chicane  

pulse compression frequency multiplication  

photo injector tests and laser  

CLIC experimental area (CLEX) with two-beam test stand, probe beam and test beam line  

28 A, 140 ns  

total length about 140 m  

3.5 A, 1.4 μs  

10 m delay loop  

combiner ring
